EDUCATION

Sardar Vallabhbhai Patel Institute of Technology | B.E in Information Technology

Jul 2017 - Jul 2021

Courses - Analysis and Design of Algorithms, Software Engineering, Database Management System

CGPA: 9.70/10.0

TECHNICAL SKILLS

Languages : Python, JavaScript, Java, C#
Backend : Node.js, Express.js, FastAPI, Django, Flask, .NET, REST APIs, Microservices
AI & Data : OpenAI API, Prompt Engineering, Neo4j (Knowledge Graph), Snowflake, ETL Pipelines
Databases : MySQL, PostgreSQL, MariaDB, MongoDB, Neo4j
Frontend : React.js, Angular, Vue.js, TypeScript, HTML, CSS/SCSS, Bootstrap, Tailwind CSS
Cloud & DevOps : AWS (Lambda, Step Functions, S3), Azure (Entra ID, Speech SDK, Blob Storage), Docker, CI/CD, Git
Others : Linux, Playwright, OOP, Agile (Scrum), Data Structures & Algorithms, System Design

WORK EXPERIENCE

Software Engineer 2 | Aug 2025 - Present

Deloitte USI, Pune, India

- **Led** the backend development of an enterprise Generative AI platform by architecting scalable Python, FastAPI, Neo4j, and OpenAI services for AI-powered knowledge retrieval.
- **Designed and implemented** React-based frontend components for AI-driven workflows.
- **Designed and optimized** REST APIs and graph-based data models for AI-powered knowledge retrieval workflows.
- **Designed and optimized** scalable Snowflake data solutions using stored procedures, views, tables, and transformation logic to support enterprise analytics.
- **Orchestrated** complex AWS Step Functions workflows to automate, monitor, and optimize end-to-end data processing pipelines.
- **Partnered** with product managers, designers, QA engineers, and stakeholders to deliver secure, scalable, and high-performance enterprise solutions.

Senior Software Engineer | June 2021 - Aug 2025

Zeus Learning, Mumbai, India

- **Led** the database migration from **MariaDB to MySQL** across **Azure and AWS**, resolving compatibility challenges and ensuring **zero downtime** during migration.
- **Built** and deployed an **organization-wide Playwright-based automation framework**, reducing manual testing efforts by **90%**, and **conducted** training to ensure consistent implementation.
- **Developed** a real-time **speech evaluation system** using Azure Speech Service, integrating an intuitive UI for enhanced user interaction. **Implemented** a mechanism to store and retrieve assessment results using Azure Blob Storage.
- **Developed** cloud-based SaaS platform facilitating streamlined and coordinated booking, increasing efficiency by **50%**.
- **Built** responsive frontend interfaces using Vue.js, React.js and Angular.
- **Conducted 30+ code reviews** monthly, reducing critical defects by **40%** and improving system reliability.

Co-founder and Managing Director | Jul 2019 - Jul 2022

Scudo Systems LLP, Ahmedabad, India

- **Designed and developed** a GPS-based real-time tracking platform achieving 90% location accuracy.
- **Optimized** GPS algorithms to improve tracking precision to a 10 m radius while increasing location update efficiency.
- **Performed** extensive testing and debugging, reducing response time by 40% while improving software reliability.

PROJECTS

ParkME (formerly Parkup) | Flutter, Firebase, Firestore, RazorPay, Twilio

- Built a real-time parking reservation platform using Flutter and Firebase with QR-based check-ins, Razorpay payments, and live parking synchronization.

Legal WIZ | Python, Django, SQLite, Twilio, JavaScript, HTML, CSS, Bootstrap

- Architected the database schema, implemented backend services using Django, and integrated the application with a responsive frontend.

PROFESSIONAL ACCOMPLISHMENTS

- **Bronze Medal** - The Professionals International Championship 2023 (Represented India)
- **Gold medal** - Academic excellence (Bachelor of Engineering).
- Published a **research paper** entitled "Parkup" as co-author in IRJET, Vol 8, Issue 7.
- Authored nearly **200 technical articles** covering diverse topics, published at educative.io and dev.to.
